REMARKS/ARGUMENTS

Reexamination and reconsideration of this application, withdrawal of the rejection, and formal notification of the allowability of all claims as now presented are earnestly solicited in light of the above amendments and remarks that follow. Claims 21-44 are pending in the application. Applicants note with appreciation that the Examiner indicates that Claims 31-44 are allowed.

Claims 21-30 stand rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over certain claims of U.S. Patent No. 6,737,505. In order to expedite prosecution, Applicants submit herewith a terminal disclaimer with respect to the cited patent. As a result, Applicants respectfully request reconsideration and withdrawal of this rejection.

It is believed that all pending claims are now in condition for immediate allowance. It is requested that the Examiner telephone the undersigned should the Examiner have any comments or suggestions in order to expedite examination of this case.

It is not believed that extensions of time or fees for net addition of claims are required, beyond those that may otherwise be provided for in documents accompanying this paper. However, in the event that additional extensions of time are necessary to allow consideration of this paper, such extensions are hereby petitioned under 37 CFR § 1.136(a), and any fee required therefore (including fees for net addition of claims) is hereby authorized to be charged to Deposit Account No. 16-0605.

Respectfully submitted,
